MARKET DULL,

Steel Common Sells Below Thirty-seven To-

NEW YORK, July 17 .- A number of stocks opened unchanged from yester-day, including Anaconda, Copper, Erie, Kansas and Texas, Pennsylvania, General Electric and Southern Pacific Reading and Colorado Fuel and Iron

Reading and Colorado Fuel and Iron opened % higher. St. Paul gained %. Canadian Pacific opened % lower. Northern Pacific showed a net gain of 1 per cent. Smelting and Refining opened % higher.

11 a. m.—There was much bull manipulation in the market all through the first hour, and many of the active traders thought that an organized bull campaign had been begun. Important advances were made in Union Pacific, St. Paul, Reading, and the Hill issues, and the demand was large enough to offset a heavy supply of stocks at the higher price levels.

Government bonds, unchanged; other bonds, steady.

bonds, steady.

Noon.—The market, after the first hour, became dull. Prices generally shaded off 1 point in the higher priced issues, like Union Pacific and Reading, and there were further concessions on the industrials. Steel common sold below 37

Secretary of the Treasury Cortelyou has left Washington for New York, and expects to spend the remainder of the summer with his family at Hempstead,

Directors of the Amalgamated Coppe Company will meet tomorrow for the purpose of declaring the regular quarterly dividend on the \$153,888,000 outstanding stock of the corporation, and no change is anticipated. The usual extra dividend, also, will be declared, so far as known. The annual dividend rate of 8 per cent—6 per cent regular and 2 per cent extra—is being earned with a good surplus in addition.

The railroads of the United States, in the matroads of the United States, in the matter of gross earnings for the six months ended June 30, gained \$250,000,000 over the same period in 1906. The show-ing for the coming half year promises to be equally interesting.

If some one kindly would step in and settle the price of copper metal, or at least give traders an idea of what the quotation really is, he would confer a great boon upon a number of estimable, but puzzled men.

It was said in Wall Street that pri-It was said in Wall Street that private offers have been made to the management of the Atchison, Topeka and Santa Fe Railway Company for the remainder of the \$25,000,000 5 per cent convertible bonds not subscribed for by the stockholders of the road, and that some of these offers have been accepted. It further is understood that some of the banks have offered to loan the Atchison company all the money it may need for the coming six months, taking the bonds at par and interest as collateral, E. P. Ripley, the president, said the company had all the money it needed for the present.

These are described as halcyon days for the railroads, as loaded cars are moving both ways without delay or complaint. This is intended as a tip 11.83.

According to an official statement more than 14,000 freight cars, costing nearly \$20,000,000 have been bought by the Harriman lines this year to handle the increased traffic offered them. New docomotives to the number of 175 have been delivered to them this year, out of a total of 271 ordered, at a cost of otal of 271 ordered, at a cost of

The fiscal year of the American Cotton Oil Company will end on August 31 next, and, according to a representative of the company, earnings will show a large increase over the preceding year.

In the last fiscal year the balance available for common dividends was 3.85 per cent and 2 per cent was paid on the common. At the meeting of the directors held in November of this year it is expected that a dividend of 4 per cent will be declared on the common stock.

AND BRIDE SAIL;

Jumping Six Points With Demand for 500 Shares at Top.

The wind veered today on the foral stock exchange and Capital Traction was marked for a big advance. It has been hanging around 129 for several weeks, the demand being confined to small jots which were supplied freely to all comers. It was learned that there was an order for a good sized block in the market and the opportunity was TRIKE NOT ON,

the market and the opportunity was seized upon to boost the price.
Opening on one small sale at 120, it jumped rapidly to 125, with but one sale between. At this level 100 shares found lodgment and 500 more were eageriy bid for at the same rate, only to find the market cleaned up to 140. The first listing of the stock of the Old Dominion and Great Falls railroad stock was taken to indicate that a mutual interest had given cause for the demand.

When this latter stock was called, the bidding advanced rapidly to 55, with no offerings at any price. This is five points above the par value.

There was also a strong market for Mergethaler, the buyers being out in force and disputing for the small amount of stock offered. The advance was a full point over yesterday's final figures and was taken to indicate that the block of stock hanging over the market for the past fortnight had been absorbed.

Sales of the board, including the after all, amounted to 1,635 shares of stock and \$1,000 in bonds , amounted to 1,000 shares of 1 33,000 in bonds.

NEGRESS GETS SIX MONTHS FOR RUNNING "SPEAKEASY"

With the conviction in the Police Court this morning of Margaret Lee, colored, charged with running an unlicensed bar at 42 O street alley, Sergeant Lord and Policemen McQuade and Livingston completed a remarkable record for closing up "speakeasies" in the Second police precinct. During the last few months more than seventy arrests have been made, and in nearly every case the defendants have been found guilty. In default of \$500 fine the woman will spend six months in jail.

REVISED BUILDING LAWS PROMISED IN DECEMBER

It was announced this morning that the special commission of experts ap-pointed by the Board of Commissioners to revise the building regulations for the District could not complete its work and submit its report to the Commissioners before December. This will be barely in time to enable the Commissioners to include it in their annual re-

port to Congress. The commission commenced its gigan tic undertaking early in April last, and has from day to day prosecuted its work with a thoroughness that will give to the District the best set of building regulations of any city in the coun-
